

As a direct result of our success in delivering a wide and diverse range of activities during our school holiday scheme for children with disabilities, we have been commissioned by the “Aiming High for Disabled Children” incentive to deliver short break activities for children with disabilities who reside within North East Lincolnshire.

Aiming High for Disabled Children in partnership with Foresight are delivering the following Short Breaks activities.

Transport provided from Foresight to activity and return to Foresight.

(Please note there are limited places available per activity so book early to avoid disappointment.)
